solar service searches put Logic Solar in the map pack

02 Map pack rankings

SEARCH TERM	POSITION	WHAT A NEARBY SEARCHER SEES
solar battery backup near me	#1	First result in the map pack
commercial solar near me	#1	First result in the map pack
solar energy company near me	#1	First result for the profile's own category
solar panel installation near me	#3	In the map pack, behind KC Solar and Blue Raven Solar
solar installer near me	#3	In the map pack, behind KC Solar and Blue Raven Solar
solar company near me	#3	In the map pack, behind KC Solar and Blue Raven Solar
solar panels near me	#3	In the map pack, behind KC Solar and Blue Raven Solar
residential solar near me	#3	In the map pack, behind KC Solar and Blue Raven Solar
solar battery installer near me	#3	In the map pack, behind Blue Raven Solar and KC Solar
tesla powerwall installer near me	—	Not listed yet: Google currently shows EV-charger and HVAC installers for this search
home battery backup near me	—	Not listed yet: Google currently shows battery retailers (Batteries Plus, Best Buy) for this search

The map pack is the block of three businesses Google shows above the regular results. Positions measured from Logic Solar's office pin; see method below.

03 Reputation

Solar businesses with five or more reviews in Google's results for "solar company near me" from the office pin. Logic Solar has more reviews than KC Solar (14), which holds the top map spot, and the highest star rating of the three businesses in the map pack (4.9 vs 4.7 and 3.8). 93 of its 95 reviews are five stars.

04 Profile health

- ✓ **Claimed and verified**, the business controls its own listing
- ✓ **4.9★ from 95 reviews**, 93 five-star, one 4-star, one 1-star
- ✓ **50 photos**, a well-stocked gallery
- ✓ **Website linked**, logic-solar.com
- ✓ **Hours listed**, Monday to Friday, 9 am to 5 pm
- ✓ **Primary category set**, "Solar energy company"
- \+ **Additional categories**, none listed; secondary categories help the profile match more searches
- \+ **Services list**, Google returned no services for the profile; adding them is a quick win

05 The opportunity

LOW DIFFICULTY

33 of 50

target terms score under 30 on the 0–100 difficulty scale; 8 score zero.

MONTHLY AD-CLICK VALUE

$38,078

monthly searches × Google's cost per click, across all 50 terms: what this traffic would cost to buy.*

BIGGEST UNCONTESTED TERM

"solar companies kansas city"

difficulty 0, 90 searches a month at $15.63 a click.

* Includes $6,638 from "solar energy companies", whose $132.76 click price is reported by Google from a small pool of advertisers and may move.

06 Priority targets

#	TERM	SEARCHES / MO	COST PER CLICK	DIFFICULTY
1	solar panel installation	390	$21.27	20
2	solar panel installation cost	390	$18.69	29
3	solar energy companies	50	$132.76	36
4	solar companies kansas city	90	$15.63	0
5	solar installation kansas city	90	$9.50	0
6	solar panels for home	590	$4.81	28
7	solar panels	1,600	$2.96	59
8	solar installer near me	40	$47.74	26
9	solar companies near me	90	$10.16	23
10	commercial solar near me	10	$41.20	6

Ranked by value (searches × cost per click) discounted for difficulty. Searches are Kansas City metro monthly averages.

07 How far the profile reaches, and the next phase

SEARCHER STANDING IN	FROM OFFICE	SOLAR COMPANY NEAR ME	SOLAR PANEL INSTALLATION NEAR ME	SOLAR BATTERY BACKUP NEAR ME
Business pin	0 km	#3	#3	#1
5 km south of pin	5 km	#4	#3	#2
Overland Park centre	6 km	#3	#3	#3
Leawood	6 km	#4	#4	#4
Lenexa	6 km	#4	#4	#4
Olathe	14 km	#3	#3	#6
Shawnee	11 km	—	—	—
Kansas City, MO	20 km	—	—	—
Lee’s Summit	25 km	—	—	—
Independence	28 km	—	—	—
Lawrence	49 km	—	—	—

A dash means Logic Solar did not appear in Google's map results searched from that point.

Next phase: carry the profile across the metro

Logic Solar ranks between #1 and #4 everywhere within about 6 km of the office, and holds #3 in Olathe, 14 km out, for the two core install searches. Past that, from Shawnee and across the state line, other installers take the spots. The next phase extends that reach: complete the profile's categories and services, build out location pages for Kansas City, MO, Lee's Summit and Independence, and go after the zero-difficulty "Kansas City" terms above.

Method. Map pack positions were measured on 15 October 2026 with Google Maps searches run from Logic Solar's own pin (7300 W 110th St, Overland Park, KS) and, for the reach table, from the named points. They are real results, but they reflect a searcher standing at those points: Google ranks map results by the searcher's location, so a person elsewhere in the metro will see a different order. Search volumes are Google Ads 12-month averages for the Kansas City DMA (both sides of the state line); close variants Google reports as one figure are counted once. Difficulty (0–100) is DataForSEO Labs, US. Data source: DataForSEO.
